Geography
Year 4 **Summer 1** **Investigation: Settlements**

Subject Purpose A high-quality geography education should inspire in pupils a curiosity and fascination about the world and its people that will remain with them for the rest of their lives. Teaching should equip pupils with knowledge about diverse places, people, resources and natural and human environments, together with a deep understanding of the Earth's key physical and human processes. As pupils progress, their growing knowledge about the world should help them to deepen their understanding of the interaction between physical and human processes, and of the formation and use of landscapes and environments. Geographical knowledge, understanding and skills provide the frameworks and approaches that explain how the Earth's features at different scales are shaped, interconnected and change over time.
Content Area Roman Settlements
Key Vocabulary Resources, settlement, grid references, legend, key, coordinate, 6 figure,
Extended Opportunities Heavily linked to History topic of the Romans. Arbeia trip.

Knowledge	**Skills**
● Establish an understanding of the interaction between physical and human processes. ● Describe and understand key aspects of human geography, including: types of settlement and land use. ● Name and locate regions of the United Kingdom and recognise their identifying human and physical characteristics.	● Use symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom (Tyne and OS maps) ● Use a range of methods including sketch maps, plans and graphs, and digital technologies. ● Use fieldwork to observe, measure, record and present the human and physical features in the local area.

Learning Objectives							
To be able to identify human and physical features on an OS map.	To be able to identify the location on a map using grid references. (4 figure)	To create our own maps using an approximate scale.	To identify physical features needed for an early settlement.	To be able to identify ideal locations for a settlement in the local area. Whitburn Park (the surrounding fields)	To use plans and graphs to identify a location for a settlement.
